The Mission of the Chief Justice of Ontario's Advisory Committee on Professionalism is to maintain those aspects of the law that make it a learned and proud profession. The Committee's main goals are to promote professionalism, civility, and a spirit of community and collegiality in the legal profession.

The Committee has developed a project for a seven-year semi-annual series of colloquia on the legal profession. The goal of the joint venture is to produce over a period of years a collection of high-quality papers about legal professionalism in its broadest sense. The papers presented at the colloquia will cover all aspects of professionalism, including the ethical, the practical, the social, the political, the cultural, and the historical aspects of what it means to be a lawyer and about the role of law in society.
